

To whom it may concern:

I respectfully urge you to reject the NAB's petition 04-160 to limit the service provided by XM Radio. This is a desperate tactic on the part of the NAB to limit fair trade and competition because they deem it easier to use their political power rather than actually improve their services or offering to make themselves more competitive in the marketplace. Satellite radio provides variety and quality not available elsewhere and I, for one, find it outrageous that the NAB is trying to hinder the satellite radio providers from doing so. I voluntarily and gladly pay for the services provided by satellite radio, and it should NOT be up to the NAB to dictate what I am permitted to hear. Please support the satellite radio providers' ability to provide the kind of programming that I deserve for my money.

Thank you,  
Josh Fox
